PROTECTOSEAL
Safety Without Compromise

The safety experts

Protectoseal has provided the world's spirit producers with a comprehensive range of products that offer the highest levels of protection and regulatory compliance in their hazardous production and storage environments.

Distillers are facing increasing regulatory pressures that demand all storage tanks be fitted with adequate means of operational and emergency venting, and explosion protection devices for use in potentially combustible atmospheres that may be subject to Boiling Liquid Expanding Vapor Explosion (BLEVE) incidents.

See below for a wide range of products with the following approvals; FM, UL, USCG & ATEX.

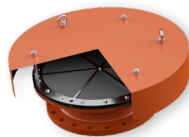

1

In-Line Detonation Arresters
UCB

2

End-of-Line Deflagration Arresters
EHB

3

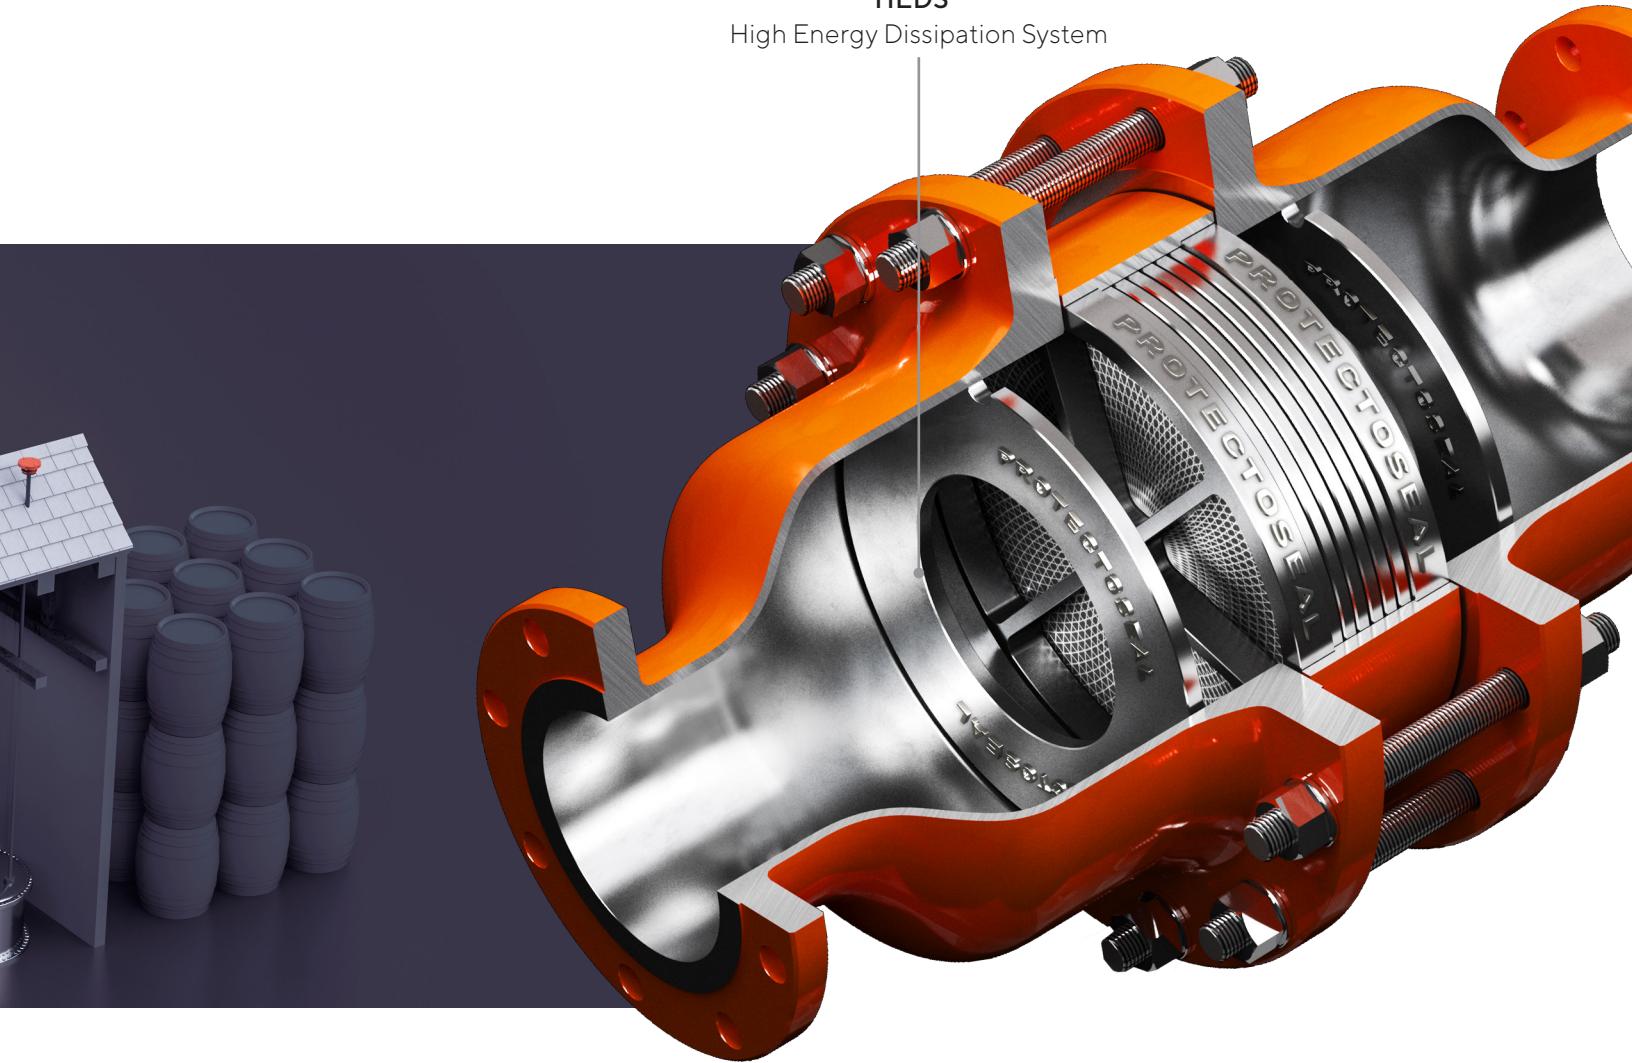

In-Line Deflagration Arresters
LCB

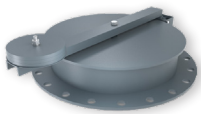

In-Line Deflagration Arresters
LCB

In-Line UCA

HEDS®
High Energy Dissipation System

4

Emergency Manhole Cover Vent
51700

5

Emergency Pressure Relief Vents
7800

6

Pressure & Vacuum Conservation Vent
8540H/8540G

Rupture Disks
