PROTECTOSEAL
Safety Without Compromise

The safety experts

Protectoseal provides a comprehensive range of products to the world's offshore oil and gas industry, including best-in-class pressure relief and explosion protection, ensuring the highest levels of regulatory compliance in these extremely hazardous environments.

When working in these environments, simple but effective explosion protection devices are required and operational requirements necessitate cost-effective solutions that provide absolute reliability and simplified maintenance regimes.

See below for a wide range of products with the following approvals; FM, UL, USCG & ATEX.

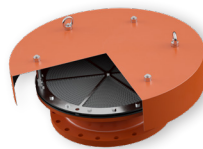

1
