**PROTECTOSEAL**  
Safety Without Compromise

# The safety experts

Protectoseal has developed an innovative range of products designed specifically for use in terminals and bulk storage, with minimal product losses, best-in-class pressure relief and enhanced explosion protection performance.

The possibility of VOC ignition leading to a potentially catastrophic explosion is an ever-present risk in the bulk storage industry. Operational needs necessitate complete dependability, minimal maintenance and cost-effective solutions.

See below for a wide range of products with the following approvals; FM, UL, USCG & ATEX.

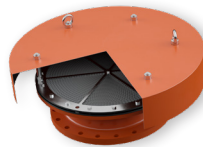

1

In-Line Detonation Arresters  
UCA

2

End-of-Line Deflagration Arresters  
EVA

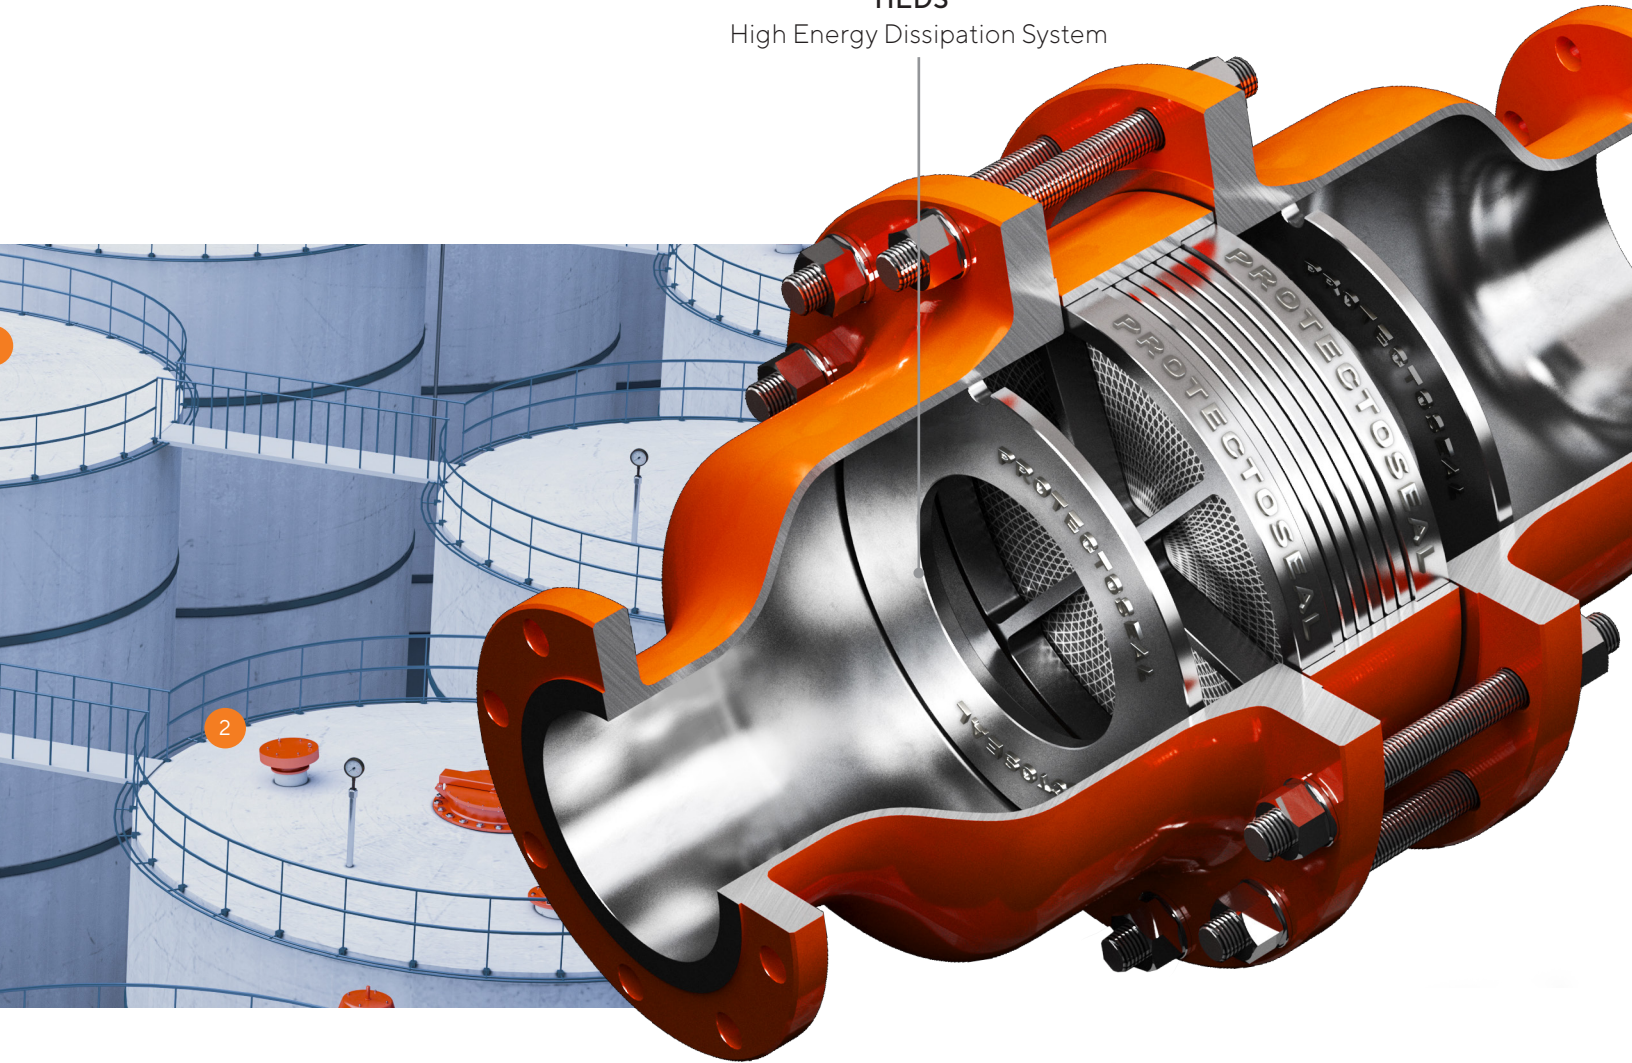

3

In-Line Deflagration Arresters  
LCA

# In-Line UCA

HEDS®  
High Energy Dissipation System

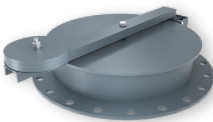

4

Tank Blanketing Valves  
20

5

Emergency Relief Manhole Vent  
51700

6

Pressure & Vacuum Conservation Vent  
8540H/8540G
